Inquiry Number: 04

Department: District Attorney
Date: 04/08/2016
Page(s) of Budget Book/PowerPoint: D-75

Request/Question:

How many workers' compensation fraud cases were private? How many worker's compensation fraud cases were public?

We presently have 8 public employee cases which are either in the investigation stage or are filed cases. The cases are from the County of Santa Barbara, City of Santa Barbara and University of California. We presently have 18 private employee cases which are either in the investigation stage or are filed cases from a broad range of private employers. We have 3 cases of premium fraud which all involve private employers and 1 major medical provider case involving a private health care physician.
