Support	Watch	Based on the current County requests for death certificates (2,000 to 2,500), the additional \$3 would generate about \$6,000 to \$7,000 a year. (without deducting the administrative costs). The Public Guardian (Treasurer-Tax Collector) is supportive of the bill. Social Services also supports the bill, but would prefer the inclusion of funding to adult protective services included as well since revenues will be generated via the penalty on persons convicted for crimes against elder and dependent adults. It is worth noting that the additional fee on death certificates will be placed on the users and, when settling an estate, a person is required to purchase multiple copies of death certificates. Amended on 4/22 to establish a rebuttal presumption that where a Native American tribe or tribal group has petitioned for a contract cancellation that tribal cultural centers, infrastructure, and housing are alternative uses that are public concerns that substantially outweigh the objectives of the act and that for tribal cultural centers, infrastructure, and housing, land contiguous to existing tribal land would provide more contiguous patterns of urban development than development of proximate non-contracted land.	No position	Oppose	Currently, there are provisions in the Act which allow Cities/Counties/Governmental Agencies to cancel contracts for legitimate purposes. The County may lose acres under Williamson Act contract and receive a reduction in State subvention funds for having less lands in contract. However, the County would not benefit economically from the conversion of such lands to other non-agricultural purposes because the land would be in trust and not subject to property taxes.	Agricultural Committee on 4/16/08- failed motion, CSAC indicated bill to be heard in Committee 4/30, but bill pulled from calendar day of hearing
