

# SANTA BARBARA COUNTY FIRE DEPARTMENT

MICHAEL W. DYER  
FIRE CHIEF

4410 Cathedral Oaks Road, Santa Barbara, CA 93110

## **PUBLIC SERVICE ANNOUNCEMENT**

**FOR IMMEDIATE RELEASE**

### **- Change Your Clock, Change Your Batteries -**

SANTA BARBARA, Ca. October 30, 2014 – As the time change approaches on November 2nd, the Santa Barbara County Fire Department reminds residents to make another change that could save their lives – changing the batteries in their smoke alarms and carbon monoxide detectors.

Non-working smoke alarms and carbon monoxide detectors rob residents of the protective benefits home fire safety devices were designed to provide. The most commonly cited cause of non-working alarms is worn or missing batteries.

To save lives and prevent needless injuries, the Santa Barbara County Fire Department has joined the “Change Your Clock, Change Your Battery” campaign. The program urges all Americans to adopt a simple, lifesaving habit: changing smoke alarm and carbon monoxide detector batteries when changing clocks back to standard time each fall, this year on November 2nd.

The peak time for home fire fatalities is between 10 p.m. and 6 a.m. when most families are sleeping. Smoke alarm and carbon monoxide detector maintenance is a simple, effective way to reduce home fire deaths. These alarms can give your family the extra seconds you need to get out of a home fire safely.
